

FTSE FRONTIER 50 INDEX

FTSE Group's first index covering frontier markets is now available. FTSE Frontier 50 Index is a liquid, tradable index, containing markets that have been assessed against an objective rules-driven and transparent methodology to identify frontier markets. The FTSE Frontier 50 Index is FTSE's first index to be created from an eligible universe of 23 new frontier markets, and this population has been screened using its established country classification methodology, which assesses markets against the size requirements, basic governance and market infrastructure elements required by international institutional investors.

FEATURES

- The index tracks the performance of the 50 most liquid stocks from the eligible universe of 23 new Frontier markets
- The new index is calculated in real-time and is designed to be used as the basis of financial products such as ETFs, mutual funds, and derivative products
- Stocks are free-float weighted to ensure that only the investable opportunity set is included within the index
- Stocks are liquidity screened to ensure that the index is tradable
- Capital and total return versions are available for this index
- The indices are managed according to a transparent and public set of index rules, and overseen by an independent committee of leading market professionals. The committee ensures that the rules are correctly applied and adhered to. Regular index reviews are conducted to ensure that a continuous and accurate representation of the market is maintained
- The index is calculated in accordance with the Industry Classification Benchmark, the global standard for industry sector analysis
